

ST. THOMAS OF CANTERBURY C OF E JUNIOR SCHOOL
“Realising the potential of every child within a caring, Christian community”

Art and Design Intent Statement

At St. Thomas of Canterbury Church of England Junior School, we intend every child to be equipped to create, enjoy, experiment and reflect on art and design, through regular teaching of varied and progressive skill and knowledge-based units, built from the aims and content of the National Curriculum. We aim for pupils to master the skills, techniques and knowledge required for creating high-quality art; and embrace the value of art as, a rich opportunity to learn about other cultures and our heritage, by developing skills to engage critically and imaginatively.

By having a strong understanding and positive experience of observing and creating art at St Thomas of Canterbury Church of England Junior School pupils will enhance their resilience and Christian character values to support their learning throughout school and into adulthood.
